

# How to Create a Hik-Connect Account Using the iVMS-4200

- A Hik-Connect account is required in order to add a Hikvision device to the iVMS4200 using the Cloud P2P service.
- A Hik-Connect P2P device, is a device that is registered to dev.hik-connect.com using the Hik-Connect P2P service.
- The Hik-Connect P2P service must be enabled on the NVR, DVR or IP Camera first prior to adding to the iVMS4200 software.
- The Hik-Connect P2P account and the Hik-Cloud P2P account are the same accounts, just different names.

**NOTE:** Please see the how to enable the Hik-Connect P2P service guide for more information how to configure this service on a Hikvision device.

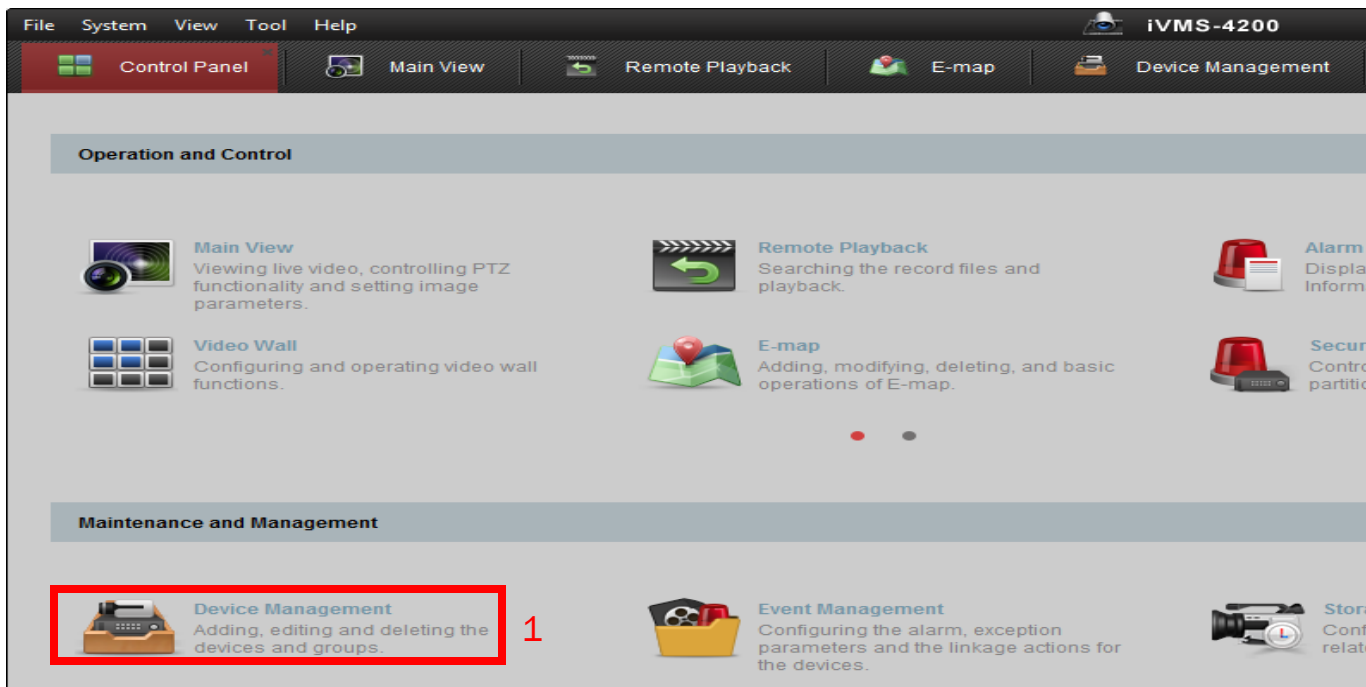

# How to Create a Hik-Connect Account Using the iVMS-4200

- You will need to have the latest version of iVMS4200 software downloaded and installed on your PC.
- You can download from the <http://tech.hikvisionusa.com> or <http://www.hikvision.com> websites.
- You will need a valid email address and access to that email address for verification purposes.

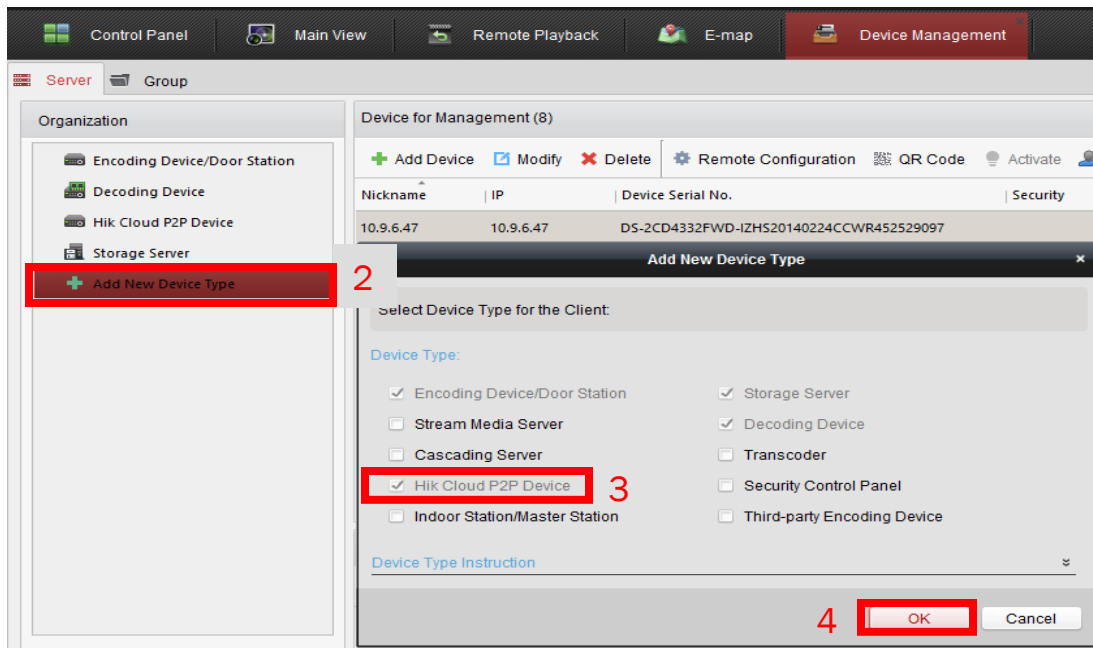

# How to Create a Hik-Connect Account Using the iVMS-4200
